

Earth Day Community Clean Up

If you belong to a club in Deep River, be it: Minor Soccer, the X-Country Ski Club, or the Chess Club, any club, any club at all, then here's a chance to pay back in a small way to your community. We are in the process of planning a Coordinated Community Cleanup for this year's Earth Day activity and your contribution is needed.

We are looking for your club members to volunteer a few hours of their time to participate in a town wide cleanup. Earth Day is April 22 and with the growing concerns about our environment this is a perfect opportunity for the young and old to get out and help set a positive example for all to follow. To make it even easier for maximum participation we are setting Saturday April 18th as the day for your club to get active and join forces with the community on whole.

There are many projects that might come to mind when you consider what your small (or large) group would like to do in the Community Coordinated Earth Day effort. The simplest would be to pick up some of the trash that has accumulated over the winter, but if you have another idea that your club would like to do than we will accept that.

To be sure that you are not covering the same area as one of the many other clubs, we ask that you please contact us with your proposals. You can synchronize your plan with Brian McInall at Valley Wines anytime between 10:00 and 6:00 Monday to Friday. Call 613-584-2118 or send an e-mail to: brian.mcinall@sympatico.ca
